PROJECT 2:

CODE:

HTML:

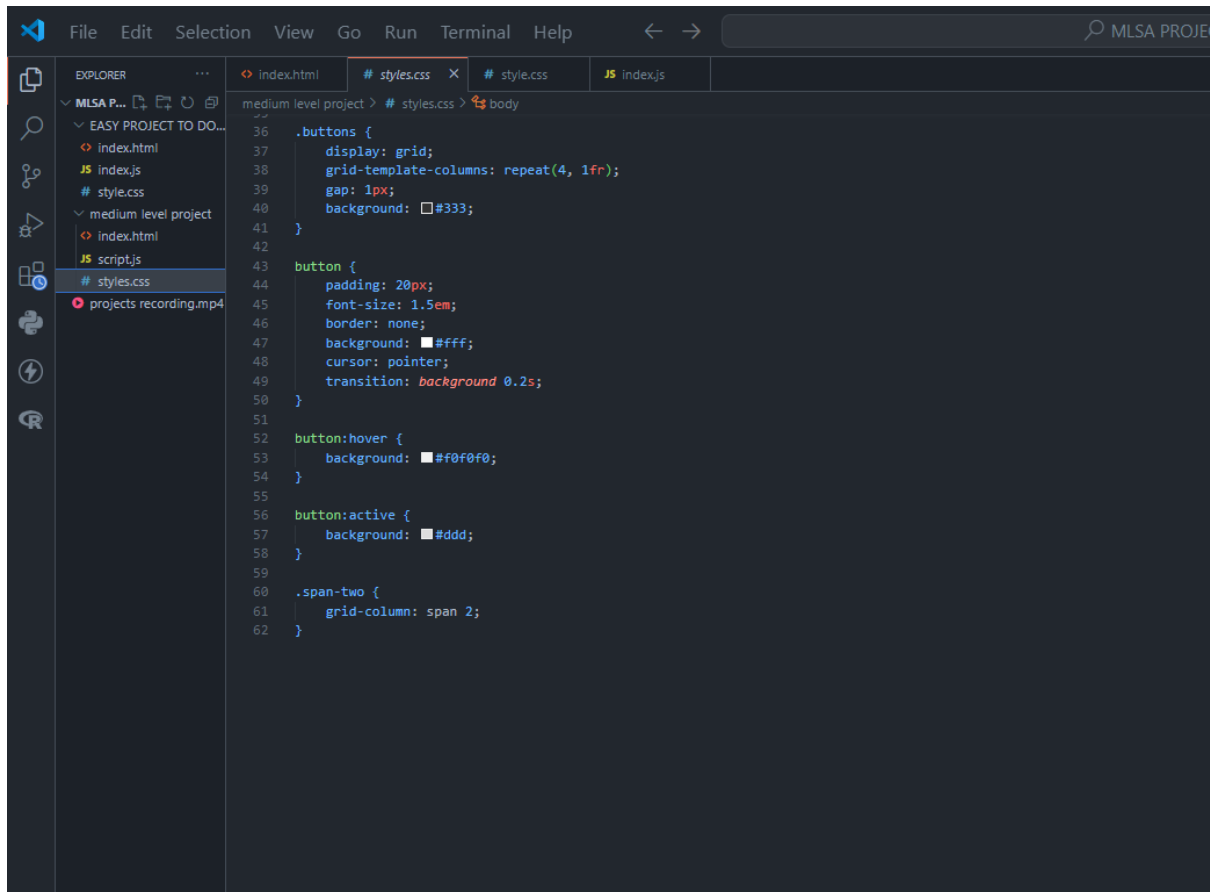

The screenshot shows the Visual Studio Code editor interface. The Explorer sidebar on the left displays a file tree with the following structure:

- MLSA P...
 - EASY PROJECT TO DO...
 - index.html
 - index.js
 - style.css
 - medium level project
 - index.html
 - script.js
 - styles.css
 - projects recording.mp4

The main editor area shows the content of `index.html` from the `medium level project` folder. The code is as follows:

```
1 <html lang="en">
2 <head>
3   <meta name="viewport" content="width=device-width, initial-scale=1.0">
4   <title>Advanced Calculator</title>
5   <link rel="stylesheet" href="styles.css">
6 </head>
7 <body>
8   <div class="calculator">
9     <div class="display">
10       <input type="text" id="result" disabled>
11     </div>
12     <div class="buttons">
13       <button class="span-two" onclick="clearDisplay()">C</button>
14       <button onclick="deleteLast()">DEL</button>
15       <button onclick="appendToDisplay('/')">÷</button>
16       <button onclick="appendToDisplay('7')">7</button>
17       <button onclick="appendToDisplay('8')">8</button>
18       <button onclick="appendToDisplay('9')">9</button>
19       <button onclick="appendToDisplay('*')">*</button>
20       <button onclick="appendToDisplay('4')">4</button>
21       <button onclick="appendToDisplay('5')">5</button>
22       <button onclick="appendToDisplay('6')">6</button>
23       <button onclick="appendToDisplay('-')">-</button>
24       <button onclick="appendToDisplay('1')">1</button>
25       <button onclick="appendToDisplay('2')">2</button>
26       <button onclick="appendToDisplay('3')">3</button>
27       <button onclick="appendToDisplay('+')">+</button>
28       <button onclick="appendToDisplay('0')">0</button>
29       <button onclick="appendToDisplay('.')">.</button>
30       <button class="span-two" onclick="calculateResult()">=</button>
31     </div>
32   </div>
33   <script src="script.js"></script>
34 </body>
35 </html>
```

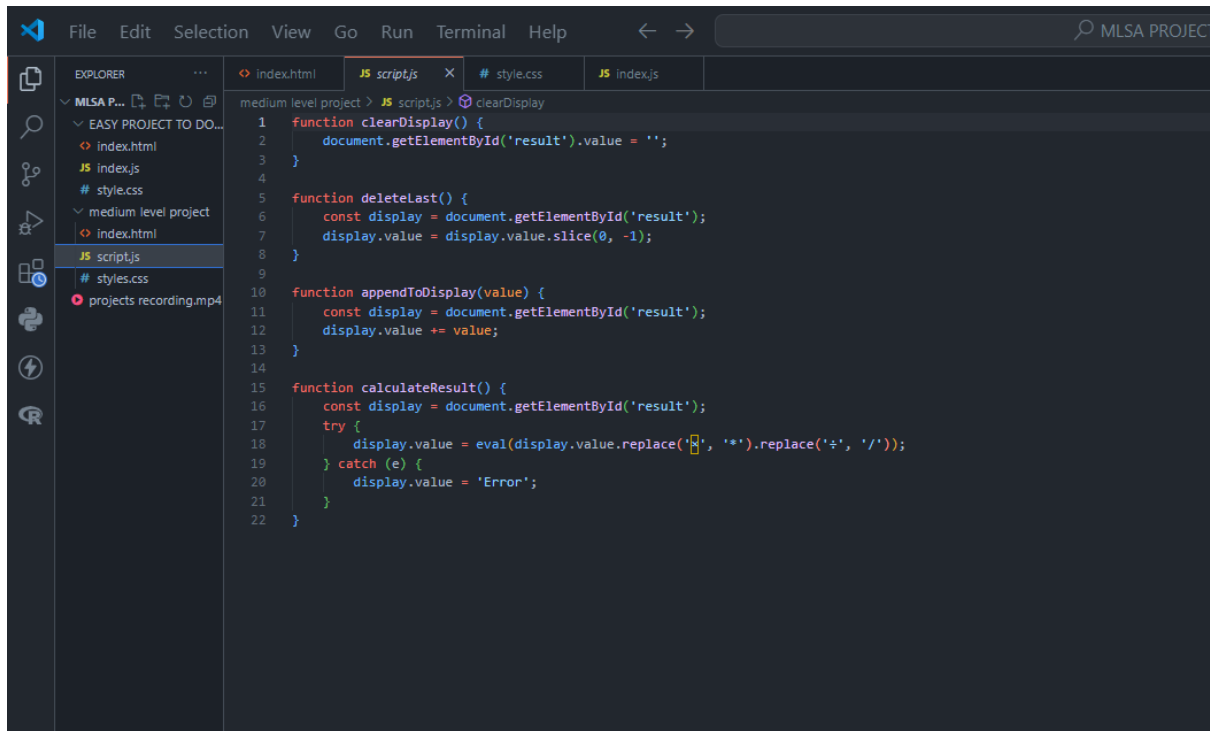

CSS:

The screenshot shows the Visual Studio Code editor with the # styles.css file open. The Explorer sidebar on the left shows the project structure with files like index.html, index.js, and styles.css. The main editor area displays the following CSS code:

```
36 .buttons {
37   display: grid;
38   grid-template-columns: repeat(4, 1fr);
39   gap: 1px;
40   background: #333;
41 }
42
43 button {
44   padding: 20px;
45   font-size: 1.5em;
46   border: none;
47   background: #fff;
48   cursor: pointer;
49   transition: background 0.2s;
50 }
51
52 button:hover {
53   background: #f0f0f0;
54 }
55
56 button:active {
57   background: #ddd;
58 }
59
60 .span-two {
61   grid-column: span 2;
62 }
```

JS:

The screenshot shows the Visual Studio Code editor with the JS script.js file open. The Explorer sidebar on the left shows the project structure with files like index.html, index.js, and script.js. The main editor area displays the following JavaScript code:

```
1 function clearDisplay() {
2   document.getElementById('result').value = '';
3 }
4
5 function deleteLast() {
6   const display = document.getElementById('result');
7   display.value = display.value.slice(0, -1);
8 }
9
10 function appendToDisplay(value) {
11   const display = document.getElementById('result');
12   display.value += value;
13 }
14
15 function calculateResult() {
16   const display = document.getElementById('result');
17   try {
18     display.value = eval(display.value.replace(/'/g, '').replace(/\+/g, '/'));
19   } catch (e) {
20     display.value = 'Error';
21   }
22 }
```
